

National Severe Weather Warning Service

Chief Forecasters Assessment

Showers will become less frequent and wintry than of late, tending to clear late in the night. This will allow road surface temperatures to fall over wet roads and pavements, giving the risk of ice.

The Met Office have issued a **Yellow Warning of Ice**

Valid from **18:00 on Sat, 17th Jan 2015** until **11:00 on Sun, 18th Jan 2015**

Showers of rain, sleet and snow into the night time period, followed by a late clearance, bring a risk of icy stretches overnight and into Sunday morning.

The public should be aware of potentially treacherous driving conditions.
